### Brainard Dispatch.

INGERSOLL & WIELAND, Publishers.

BRainerd, MINNESOTA.

The poet Swinburne is the chief

unlucky literary man in England.

He is said to love all pretty women,

but has never possessed one.

A suit in London to recover the

amount of loan (\$75) developed the

fact that the borrower had been pay-

ing interest at the rate of 120 per

cent, per year for six years.

Sir John Macdonald, in the Canadian

Parliament, said that the import

duty on sawn lumber to \$1 per thou-

sand feet Canada will reciprocate on

logs.

A peculiar accident befell William F. Miller

at Union, Minn., yesterday. Four persons

were killed when a plank, while being

lifted, fell on them. The accident

occurred while the men were

working on a bridge.

The recent heavy rains have caused much

damage around Vance, Edwards county,

Tex. The Vance river has been higher

than ever before known.

Several lives were lost.

Dr. W. B. Winchell, a young

Brooklyn physician, is authority for

the statement that the grip is al-

most as prevalent now as it was

during the last winter. He has had

many cases of renewed attacks of it.

JOHN KELLY, Jr., son of the late

Tammany hall leader, is 10 years

old, and is an exact counterpart, on

a small scale, of his father. He is

said to, to be a little "boss" among

his youthful companions.

A man with a fondness for statistics

has computed that more than

4,000,000 miles of blood pass

through the veins of an ordinary

human being during the lifetime of

seventy years.

The Nebraska supreme court says

grain elevators may be erected on

railroad companies' right-of-way at

stations without the permission of

the companies, on the ground that

elevators are public necessities.

JOHN SWEATMAN, who has just been

granted a pension of \$20 a month, is

officially declared to have been the

first man wounded in the war of the

rebellion. There were a good many

other swimmers in the army but John

is the first to achieve distinction.

The ticket scalpers are pretty sold

with the railroads so far. When

thirty of them can start off in a

hunch on passes, occupying a private

car, presenting much the appearance

of owning the road, it goes to show

that the ticket scalpers have no im-

mediate danger of their lives.

QUEER accidents will happen in

Connecticut. A citizen of Norwich

stroking along, accidentally hit his

pipe with his hand, and hit him in the

eye. It turned a delicate round hole

in the eyeball, but careful treatment

saved the sight of it.

An Englishman, who insulated

his bedstead by placing underneath

each post a broken off bottle, says

he had not been free from rheuma-

tism or gout for fifteen years, and

that he began to improve immedi-

ately after the application of the insu-

lators.

GOV. PRINCE of New Mexico recently

passed through Chicago enroute,

with a committee of leading citizens

of New Mexico for Washington to

see what can be done by Congress to

settle all questions pertaining to

land grants and titles in their Ter-

ritory.

COMMANDER McALLA's punishment

is severe. To be suspended from rank

and duty for a period of three years

will mark his record with a bar sin-

ister that can never be effaced; but

the retention of his present number

on the list of commanders for three

years is a serious loss of time on the

slow road to promotion in the navy.

According to the statement of the

English chancellor of the exchequer

the drink bill of the united kingdom

last year was \$661,000,000. This

covers spirits, beer, and wines. For

an estimated population of 37,000,

000 this is about \$19 per year for

each inhabitant, or nearly \$85 per

head of family.

WHEN the average man or woman

comes to be fitted with the first pair

of glasses, some curious discoveries

are made. Seven out of ten have

stronger sight in one eye than the

other. In two cases out of five one

eye is out of line. Nearly one-half

the people are color blind to some ex-

tent, and only one pair of eyes out of

every fifteen are all right in all re-

spects.

MAN is the only animal that has

teeth-incisors, canines and molars-

of unequal height. Man, the ape, and

nearby animals have, three, two, two

teeth. The hog, however, is better

off than this, and has forty-four. So

have the opossum and mole. The

river dolphin of South America lays

far beyond this, however, having no

more than 222 teeth. Teeth are not

part of the skeleton, but belong to the

appendages, like skin and hair.

The statement is made that a Mex-

ican has solved the problem of pre-

venting railroad conductors from

"hanging uplars." A machine look-

ing like a typewriter is carried

through the car. The photograph

of each passenger is taken, the

amount of his ticket is inscribed and

his name is printed. The device is

incomplete, as it is thought desirable

to obtain the weight, age, profession

of each passenger, with such other

biographical data as may be

interesting.

The funeral of J. M. Barber, of Burnhamville was held at Pillsbury on Wednesday of last week, and the large gathering of friends and relatives to attend the last sad rites attests to his character as an esteemed citizen. His mother and six brothers still survive him. The brothers are N. E. and F. M. of Brainerd, A. E. of Swanville, J. H. and G. W. of Washington, and M. L. of Watertown, S. D. The funeral was conducted by the G. A. R. post of Long Prairie, of which he was an honored member. Long Prairie Leader.

Fisk Jubilee Singers.

The concert by the Fisk Jubilee Singers at the New England Assembly at South Farmington, last night, was attended by thousands on thousands, the vast auditorium solidly packed. Of their performance it is needless to speak; it was unique, made up of striking contrasts, abounding in vigor and pathos, as the sentiment required, and gave immense satisfaction. Boston Journal.

Will appear in Brainerd at the opera house on June 14th, under the auspices of the W. C. T. U.

The Coming Convention.

Every effort is being made by the members of the Brainerd Fire Department to make the 18th annual convention of the state firemen, which convenes in this city on the 10th and 11th of June, the most successful in the history of the organization.

The number of delegates from various parts of the state will reach up into the hundreds, and it is desirable of making a good impression upon the visitors which will bear fruit in the future. Brainerd has always done herself proud in the matter of entertaining visitors, and this will be no exception to the rule. The city will be decorated and a beautiful arch will be erected over the streets at the corner of Front and Sixth, on the top of which will be the band stand and the electric lights will be so arranged as to give a very pleasing effect in the evening. Matters of business will be attended to on the afternoon of the first day at the opera house, and a grand banquet will follow at the Commercial hotel, the details of which are in the hands of a competent committee, and which are already nearly completed. Following this will be the grand ball at the armory. Visiting firemen and delegates will be furnished with every possible attention. The second day will probably be devoted to showing the visitors around the city and the various points of interest in this vicinity. It is unfortunate that our excellent 3rd Regt. Band will not be able to be in the city, on account of having a previous engagement, but arrangements have been made with the St. Cloud band for their services on that day. In order that our people may judge of the number expected, we publish the list of delegates elected from the Brainerd companies, and when it is understood that each city in the state where an organized fire department exists has proportionately a similar number of delegates, one can judge of the magnitude of the occasion. The delegates from Brainerd are:

Hose Co. No. 1—T. J. Sanborn and John Bubar. Hose Co. No. 2—J. P. Saunders and C. B. Thompson. Hose Co. No. 3—Thos. Watts and Ed. Crust. Hose Co. No
